## OBJECTIVE

I am a second-year Cyber Security student looking for a 12-month placement where I can build real-world experience and develop my technical skills. I'm keen to learn from professionals, contribute to meaningful work, and continue improving my understanding of systems, networks, and cybersecurity in a practical setting.

## EDUCATION

**Bachelor of Science (BSc) in Cyber Security**  
Nottingham Trent University, Nottingham

September 2024 - July 2027

Relevant coursework: Network Security, Ethical Hacking, Incident Response, Digital Forensics, Risk Management, Secure Software Development.

## SKILLS

**Cybersecurity Fundamentals:** Understanding of core security principles, common threats, basic incident response concepts, and foundational cybersecurity best practices.

**Systems & Networks:** Knowledge of TCP/IP networking, system configuration, and administration across Windows and Linux environments.

**Technical Tools & Analysis:** Familiar with Kali Linux, basic vulnerability scanning, command-line tools, and interpreting simple system or network outputs.

**Programming & Scripting:** Practical experience with Python for basic automation tasks, as well as Bash and PowerShell for command-line operations

**Technical Communication:** Able to explain technical concepts clearly, document system requirements, and create UML diagrams through academic projects.

**Teamwork & Professional Skills:** Strong collaboration, communication, problem-solving, and adaptability developed through mentoring and customer-facing roles

## ACADEMIC PROJECT

**Systems Analysis & Design Project** - Nottingham Trent University

January 2025 - March 2025

- Assisted in designing a web-based management system using Agile methods, including requirement gathering and UML documentation.
- Supported UI prototyping and contributed to basic SQL database design.
- Identified feasibility and cybersecurity risks, proposing mitigation steps while collaborating effectively in a 5-member team.

## WORK EXPERIENCE

**Student Mentor** - Nottingham Trent University

June 2025 - Present

- Supported mentees by explaining technical concepts in a clear and approachable way.
- Built strong interpersonal and communication skills through regular one-to-one and group interactions.

**Sales Associate** - Roosters Piri Piri

September 2024 - Present

- Provided customer service in a fast-paced environment and resolved queries professionally.
- Developed strong communication and teamwork skills while working with staff and customers.
- Maintained accuracy in transactions and followed procedures, reinforcing attention to detail.

## CERTIFICATIONS

**Google Cybersecurity Professional Certificate** - Coursera

- Foundations, incident response, network security

**Cisco Endpoint Security Certification** - Cisco Networking Academy

- Endpoint protection, malware analysis, and secure configuration.
